Maritime Foundation

AMIT COWSHISH

Partner, Dua Associates and former
Financial Advisor (Acquisition),
Ministry of Defence

The past few years have seen significant reforms across the defense sector in India – from military command and organisational structures, to procurement and acquisition policies. These, along with the strategic decision-making processes, are among the most complex and least understood areas in this sector. The objective of this workshop is to take stock of the structural reform path that India has embarked upon in the defense sector, how successful it has been, and what the way forward should look like.
